CENTENNIAL CELEBRATION AT YORK, PENN'A—Several months ago it was proposed in the DAILY that the citizens of York celebrate the Centennial Fourth in a becoming manner. The suggestion was received with much favor on the part of the entire community.

The first practical movement towards the proper observance of the day was made by the Town Council at their June meeting which consisted of the appointment of the following Committee which was empowered to adopt a programme and carry the same into effect:

E. W. MEISENHELTER
Chairman.

G. W. WINEHOLD, Secretary.

W. H. GRIFFITH, Treasurer.

T. K. WHITE.

I. W. G. WIERMAN.

This committee called to their aid such citizens as they desired to assist them in making the necessary arrangements. Of course, the most energetic and enterprising gentlemen who could be

found were selected, as it required men of that character to make the affair a success.

The following are the citizens who were selected to assist in the enterprise:

Jas. A. Dale,
L. T. Deininger,
Frank Geise,
W. S. Schroeder,
W. Y. Link,
Chas. W. Myers,
Adam Reisinger,
M. L. Van Baman,
David Myers,
M. J. Seitz,
J. P. Fric,
Edw. Chapin,
Edw. Stuck,
H. Gipe,
Dr. C. H. Bressler,
Marin Bender.

The work was heartily engaged in by this joint committee, and their efforts have been attended with much success, as will be seen in the following order of exercises for the day.

1. General illumination and ringing of bells from 12 M. to 1 A. M.

2. National airs by chiming of Trinity Reformed church from 4 to 5 a. m.

3. Salute of 13 guns at sunrise on the Commons.

4. Raising of national flag in Centre Square by soldiers of the war of 1812 at 6 o'clock A. M., with music by Citizens' Band.

5. Parade of Military, Fire, Civic Associations, Citizens, &c. Parade to form at 9 and move at 9 1/2 o'clock, sharp.

Order of procession.

America's 100th Natal Day.

How our pulse quickens to-day—what a flush of honest pride and exultation steals over us—to-day our mighty nation, a youthful giant, enters upon her second century. But we desire to give vent to no senseless or wear-

some platitudes—enough of that has been and will be done by others. But who of us, that, from childhood up, have hailed with supremest joy and patriotism the annual return of "The Day We Celebrate," can help but feel a still stranger sensation creeping over him on this, the grandest of all our holidays—America's *Centennial* Birthday.

When our nation first was born—100 years ago to-day—the residents of her thirteen States were not equal to those of the Keystone State to-day; now, thirty-eight States with forty millions are our quota. Wealth, refinement, intelligence have grown in proportion.

It is no wonder, then, that our hearts beat wildly to-day, and we forget our everyday lives and avocations, when we consider the grandeur of the occasion, the like of which none of us will see again.—None who read these lines will ever greet another *Centennial Fourth*.

But what of our country, then? That thought must "give us pause." God grant that she may go on in the future as in past, in her glorious career; and that, when the sun of this day one hundred years hence, emerges from the broad Atlantic's waves, gilding our eastern shores,

he may still find America "the land of the free and the home of the brave."
